China Care and Compassion Society(CCCS)was founded in March 2001 and joined voluntarily by Chinese public figures from the fields of science and technology, social sciences, religion, law, press, culture, sports, medical cure and hygiene. CCCS is dedicated to advocating and carrying forward the scientific and humanistic spirit in the Chinese society. CCCS cares about people's physical and mental health as well as the living conditions of vulnerable groups of the society. CCCS pays closed attention to coordination with different social sectors for construction of a harmonious society and realization of sustainable development.

The primary actions of CCCS are: (1) To uphold the principles of The Charter of the United Nations and The Universal Declaration of Human Rights, launch campaigns for education and popularization of human right concept and relevant knowledge. (2) To organize public activities on science, culture, sports, hygiene and health care. (3) To participate in the programs for developing social virtues in urban and rural communities and families for a harmonious, civilized and progressive social atmosphere. (4) To strengthen collaboration and cooperation with other organizations and conduct researches on development of personality, physical and mental health, social coordination and sustainable development, and present proposals to the government.

CCCS has been NGO in special consultative status with the Economic and Social Council, United Nations since July 2004.
