The U.N. High Commissioner on Human Rights  
U.N. Office, Geneva

Dear Sir/Madam,

We are given to understand promotion and protection of human rights in Vietnam will be taken up for review and discussion in this session of the Human Rights Commission.

AAPSO leadership and officials have been regularly visiting Vietnam and have up to date knowledge of the tremendous improvements made in the field of human rights. Special mention should be made on the efforts of the government of Vietnam to provide facilities for the victims of Agent Orange to improve their health and train in vocational guidance. Vietnam has immediately progressed in all spheres of activity after liberation from foreign domination.

Dr. Helmy El-Hadidy

President

Nouri Abdul Razzak Hussain

Secretary-General
